DIRTY AIR is uncomfortable—for you and your clients.

DIRTY AIR robs you of business profits—soils retail merchandise—reduces customers' comfort—cuts down employee productivity.

DIRTY AIR raises the cost of living—you spend more on cleaning tools and cleansing agents—you work harder on "housecleaning" chores.

BUT—

You can enjoy cleaner, fresher air by using a **Majestic[®] ELECTRONIC**

Let the Majestic ELECTRONIC AIR CLEANER provide your store, office, a fresher air. Treat your customers or clientele to an indoor atmosphere that is comfortable and pleasant—where dust, smoke, lint, pollen, bacteria and dirt are effectively reduced. Help create a better business and profit climate by raising production efficiency and cutting the cost of cleaning and maintenance.

Trouble-causing airborne impurities—even the tiniest particles—are trapped in the unit goes to work. First, air is drawn into the air cleaner cabinet by a powerful fan. A porous, protective screen traps large particles of dirt and lint. Then the electrostatic mechanism removes practically all remaining particles. The charcoal filter is activated. Charcoal is a well known adsorbent of odors and vaporous contaminants. The clean air flows out and is recirculated throughout the room.

IN YOUR OFFICE — Handsome Majestic console model, ideal for executive offices, waiting rooms. (See Model MEC-3 on back.)

IN YOUR STORE — Majestic mobile model for stores, restaurants, motels, clinics, doctors' offices, funeral parlors, etc. Wheels anywhere, plugs into standard outlet. (See Model MEC-1 on back and picture at right.)

AT HOME, TOO — Majestic's portable table model is recommended for rooms 20' in size. Plugs in handily, can be moved easily from room to room. (See Model MEC-2 on back.)
